

NGUYEN TRONG NHAN

FULL-STACK DEVELOPER | LARAVEL · REACT.JS · NEXT.JS

Tan Chau, An Giang · +84 334 323 707 · ntnhan030602@gmail.com

Portfolio · GitHub

PROFESSIONAL SUMMARY

Information Technology Engineer with experience developing and deploying full-stack web applications. Works with Laravel, PHP, and MySQL on the backend, and React.js, Next.js, and TypeScript on the frontend. Able to contribute across the delivery lifecycle, from clarifying requirements and building APIs and interfaces to configuring production environments. Focused on performance, technical SEO, maintainability, and user experience.

TECHNICAL SKILLS

Backend: PHP, Laravel, RESTful APIs, business logic, authentication, service integrations

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Databases: MySQL, database design, query optimization

Deployment & Optimization: VPS, basic Linux, domains, DNS, SSL, hosting, business email, Technical SEO, Core Web Vitals

Tools & Collaboration: Git, GitHub, Postman, Apidog, Figma; Agile/Scrum, testing, and maintenance

PROFESSIONAL EXPERIENCE

DESIGN24 | Full-Stack Developer

02/2025 – Present

- Develop and deploy web projects from requirements clarification through production, contributing across backend, frontend, and parts of the deployment infrastructure.
- Build Laravel backends, develop RESTful APIs, implement business logic, and manage MySQL data.
- Develop React.js/Next.js interfaces with a focus on responsive design, user experience, and application performance.
- Design database structures and optimize queries; improve page speed, technical SEO, and security within project scope.
- Deploy production websites and configure VPS, hosting, domains, SSL, and business email; maintain features and troubleshoot issues.

DELTA BRAINS JSC | Backend Developer Intern

05/2024 – 07/2024

- Developed and maintained backend features using Laravel and MySQL; designed database structures and built RESTful APIs for frontend applications.
- Collaborated with the React.js team to integrate APIs, handle data, and support interface implementation.
- Participated in Agile/Scrum, testing, debugging, query optimization, deployment, and system maintenance.

SELECTED PROJECTS

E-commerce, learning, and business service web products

DCT MART — E-commerce Platform

Frontend Developer · React.js | 10/2025 – Present

An e-commerce platform with customer and membership management, e-wallet, coupons, commissions, promotions, and role-based permissions.

- Developed React.js interfaces and integrated RESTful APIs across business modules.
- Built search, filtering, pagination, and interfaces for membership, e-wallet, coupons, and account management.
- Worked with backend developers to complete business data flows and improve desktop and mobile usability.

Technologies: React.js, JavaScript, Tailwind CSS, RESTful APIs, Git

Website: www.dctmart.vn/

AI for Design & Communications — Learning Platform

Full-Stack Developer | 05/2026 – 06/2026

An e-learning platform for managing courses, learning materials, students, and learning progress.

- Clarified requirements and contributed to the system solution design.
- Built RESTful APIs with Laravel/MySQL and developed the frontend with Next.js.
- Deployed to production and configured domain, hosting, and SSL; supported page-speed and technical SEO improvements.

Technologies: Laravel, MySQL, RESTful APIs, Next.js, React.js

Website: thiet-ke-truyen-thong.design24.edu.vn/

Can Tho Agri — Agricultural E-commerce Platform

Full-Stack Developer | 01/2026 – 02/2026

A platform connecting agricultural producers with customers and supporting product, order, and business information management.

- Developed the Laravel/MySQL backend and APIs for frontend features.
- Built responsive React.js interfaces and completed product and content management features.
- Participated in production deployment and operations.

Technologies: Laravel, MySQL, React.js, RESTful APIs

Website: nong-san.canthoagri.vn/

Design24 Agency — Business Services Website

Full-Stack Developer | 07/2025 – 08/2025

A business services website for lead generation, with a focus on SEO and conversion.

- Developed responsive interfaces using Next.js and TypeScript.
- Optimized technical SEO, Core Web Vitals, and page speed; completed the contact form workflow.
- Deployed the website to a VPS and configured the domain.

Technologies: Next.js, TypeScript, React.js, Core Web Vitals, SEO

Website: dich-vu.design24.vn/

EDUCATION

CAN THO UNIVERSITY | Engineer in Information Technology

10/2020 – 03/2025 · GPA: 3.4/4.0

Graduation Project: Designed and built a SPA web application for library book borrowing and management.

CERTIFICATIONS

Front-End Programming with ReactJS — Coursera (02/2025) · Advanced JavaScript — Coursera (02/2024) · Responsive Web Design — Coursera (08/2023) · HTML & CSS — Coursera (06/2023)
